

Thomas Amato | Vice President, Technical Services

■ Profile

Thomas Amato leads technical services for Certified Security Solutions, Inc. (CSS). In this role, Thomas directs the consultant management team and is ultimately accountable for all delivery. Committed to CSS' geographic expansion, Thomas has worked extensively with CSS' anchor clients in the Midwest, and helped build a strong consultancy organization in the region. In support of the team, Thomas relocated from Portland, OR to Cleveland, OH in early 2004.

Thomas' focus on execution is steadfast. He is committed to the quality of our work product and continuously improving CSS' capacity to understand and respond to our clients' needs through the development and growth of our consultancy abilities.

Thomas began his career at CSS as a consultant architecting and designing secure frameworks for infrastructure services. Thomas possesses both deep technical know-how and the ability to organize and lead multidisciplinary teams. Thomas' vision, work ethic, and collaboration skills have earned him a significant voice on CSS' senior leadership team.

Thomas began his consulting career with CTR Business Systems, Inc. Thomas graduated from the University of Notre Dame with a degree in philosophy, and engaged in post-graduate work at the University of California, Irvine. Thomas holds a M.A. in Philosophy, which he earned from Duquesne University in Pittsburgh.

Personal Highlights

- ▶ Thomas resides in Cleveland, OH.
- ▶ In his spare time, Thomas enjoys reading literature, watching movies, and taking in baseball in the summer and football in the fall.
- ▶ Thomas is also an avid motorcycle enthusiast, and when he isn't riding, he enjoys performing all his own maintenance.
